

## Introduction

NeuroOptics offers a wide selection of infrared imaging pupillometers to meet your research needs. The questions to answer to narrow down your options are as follows:

- Human or animal?
- Monocular (hand-held) or binocular?
- Pupil diameter only or also the pupillary light reaction?
- Need to download data?

## VIP®-300 Pupillometer

The NeuroOptics VIP-300 Pupillometer is a portable, battery-operated, hand-held device which very accurately measures pupil size under various light conditions.

## Ordering Information

NeuroOptics® VIP®-300	Part Number
<b>System Includes:</b> VIP®-300 Pupillometer, Charging Station & Power Supply, Eye Cups (2), Carrying Case	VIP3-KIT-01
Optional Accessories	Part Number
Printer Kit	NEUR-PRTS445-BT
Barcode Scanner	BCS-CC-01

# PLR™-3000 Pupillometer

The PLR-3000 Pupillometer is a portable, battery operated, hand-held device which quickly and accurately measures pupil size and the pupillary light reflex. Used by researchers at leading universities, pharmaceutical companies, and contract research organizations worldwide, the PLR-3000 is an important research tool.

## Ordering Information

NeurOptics® PLR™-3000	Part Number
<b>System Includes:</b> PLR™-3000 Pupillometer, Charging Station & Power Supply, Eye Cups (2), Carrying Case	PLR3-KIT-01
Optional Accessories	Part Number
Printer Kit	NEUR-PRTS445-BT
Barcode Scanner	BCS-CC-01

The RAPiDo is a portable, all-in-one device which measures pupil diameter under different light conditions, detects and quantifies Relative Afferent Pupillary Defect (RAPD), as well as efferent pupillary defects and Horner's syndrome. The RAPiDo provides a simple and reproducible way to screen and assess retina and optic nerve disorders.

## Ordering Information

NeurOptics® RAPiDo™ System Includes	Part Number
<b>System Includes:</b> RAPiDo™ Pupillometer, Instruction Manual, Power Supply, Carrying Case	RPD-KIT-01

# DP-2000 Pupillometer

The DP-2000 Pupillometer is a binocular, multi-chromatic (white, green, blue and red) system which stimulates direct, consensual, or both eyes simultaneously. The DP-2000 is a very sophisticated research tool for many applications.

## Ordering Information

NeurOptics® DP-2000 Pupillometer and Laptop	Part Number
<b>System Includes:</b> DP-2000 Pupillometer and Laptop	DP-2000-KIT-01

# A-2000 Small Animal Pupillometer

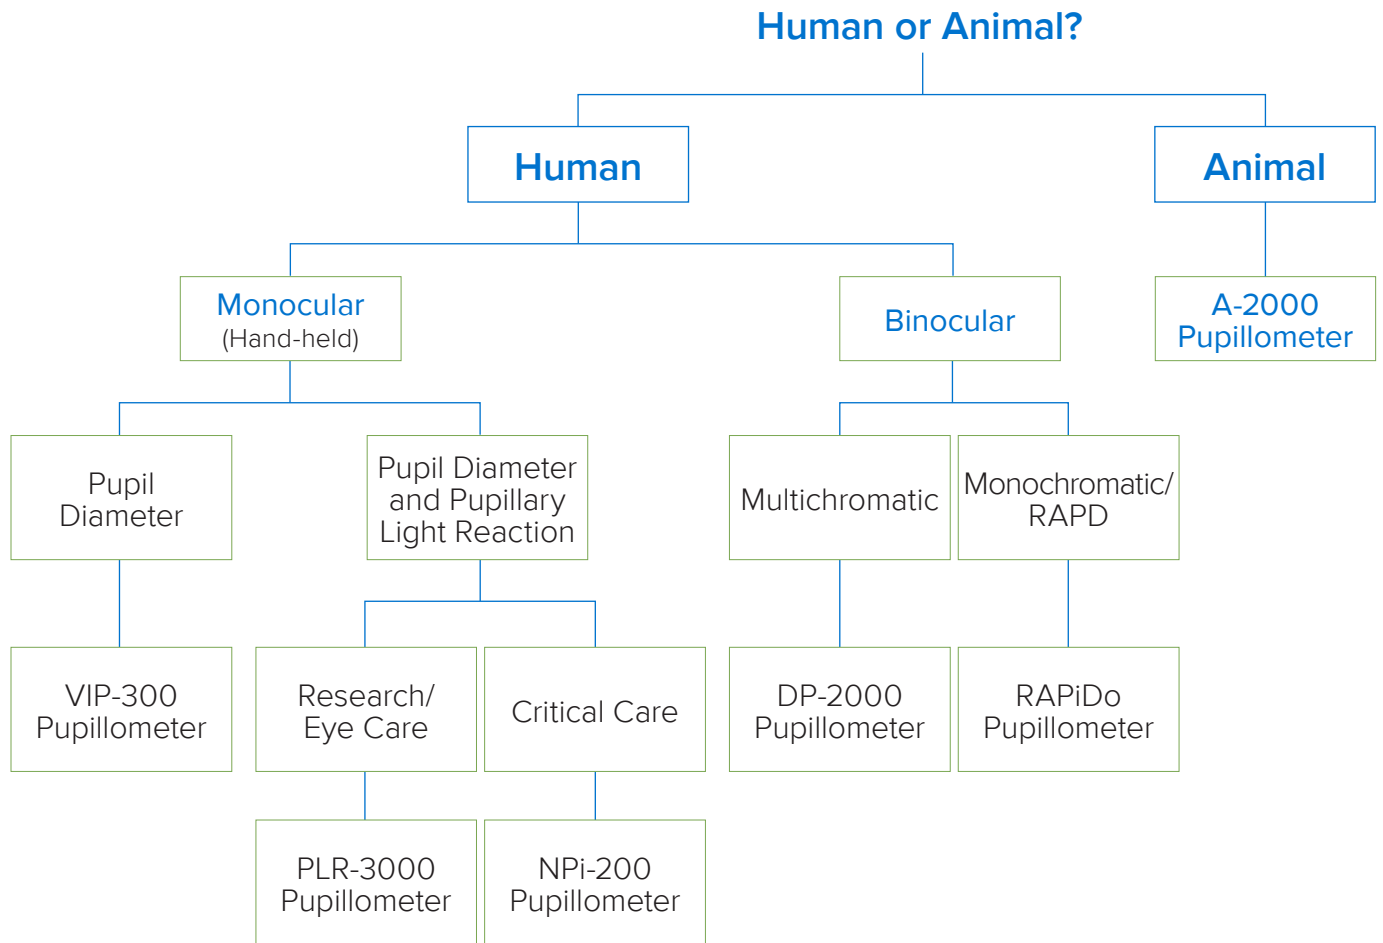

The A-2000 Pupillometer is a binocular, multi-chromatic (white, green, blue and red) system which stimulates direct, consensual, or both eyes simultaneously. The device is designed to be used with a variety of animals including rodents, rabbits, and other animals with similar pupils.

## Ordering Information

NeurOptics® A-2000 Small Animal Pupillometer	Part Number
<b>System Includes:</b> A-2000 Pupillometer and Laptop	A-2000-KIT-01
